

# THE BASSANO STAMPEDE

BASSANO, ALBERTA, THURSDAY, JULY 14th, 1927

## ENOUGH FUNDS ON HAND TO BUILD POOL

\$1,327.54 Net Amount Realized—Is Sufficient to Build Plank Pool

Geo. Travis, reporting for the swimming pool committee at the Board of Trade meeting held in the Hunter Hotel Wednesday, July 13th, stated that they had realized a net amount of \$1,327.54 on the sale of tickets, and of this amount \$150.00 had already been spent on excavating leaving \$1,177.54.

In his report Mr. Travis said that their object had been to raise enough money to build a concrete pool, but sufficient funds had not been procured for this. They had, however, obtained estimates on the cost of a plank pool, with gravel bottom. This type of pool would cost approximately \$300.00, and the dressing rooms, fence, etc., about \$350.00. Here are the figures:

Estimated cost of plank pool	\$ 60.00
Dressing rooms, fence, and other fixtures	240.34
Total	\$1,177.54
Plank pools, said Mr. Travis, have elsewhere been found to give good satisfaction.	
The report of the receipts and disbursements of the ticket selling is as follows:	
Receipts	\$1161.59
Disbursements	
Ford touring car	\$636.40
Cash prize	50.00
Postage	41.40
Printing	144.25
Exchange	2.70
Cash on hand	1387.34
	\$1216.59

The swimming pool committee was authorized to go ahead with whatever plan they deemed advisable.

Other business.

The attendance at the board meeting was rather smaller than usual, only fifteen members being present.

Mr. N. P. Carver expressed his thanks to the members for their help and co-operation in the work of putting on the stampede and celebration program and carnival. He said that complete returns were not yet in on the day's operations, so he could not give any accurate figures on this matter.

Mr. Carver also mentioned the auto camp had been cleared of weeds and put in a more clean and tidy condition.

## Will Aid In Getting Help For Harvest

The Bassano Board of Trade is in a position to aid farmers in procuring Old Country labor for the harvest. E. A. Beck is in charge of this work, and farmers should make application to him.

## LARGE CROWD ATTRACTED TO THE BASSANO STAMPEDE

Elaborate Program of Stampede Events, Athletic Sports, and Parade, Draws Many People from Surrounding Community — True Jubilee Spirit Depicted in Many Handsomely Decorated Floats in Big Parade

Although the attendance was not as large as that of last year, the Bassano stampede and celebration held last Friday, July 13th, attracted a large crowd of people from Huxar, Gem, Countess, Rosemary, McJerville, Makepeace, Crowfoot, Lathorn, from points north of the Red River, and from other districts. It is estimated that about two thousand people were on the grounds.

The day was ideal, with the sun shining brightly, and a light breeze blowing. Everything went off smoothly, and without a hitch. Considering the program was postponed from the week previous, the attendance and general results were very good, much better than many expected.

Parade is Colorful and Spectacular. Early in the morning the crowd began to gather from all points of the compass, and by noon, hundreds of people were in town. The big parade was one of the most interesting features of the day's program.

Two Indians came first and second in the barrel race, Mark Three Sons and Donald MacIntyre. The slow race was also won by the Indians. Anthony Collett in first and Mark Three Sons second.

Two Indians, Frank and Mark Three Sons took first and second money in the cow milking contest. The slow race was also won by the Indians. Anthony Collett in first and Mark Three Sons second.

## Gen News

GRM, July 13 — Mrs. E. Small and Mrs. Wyatt have been spending a week among the famous Rockies, returning to the Colony on Tuesday. A large number of Genites attended the Bassano stampede on Friday last.

Mrs. Gentler was a recent Calgary visitor.

Miss N. O. Callaghan of Boston, U. S. A., is enjoying a holiday here, the guest of Mrs. Maguire.

Hay making is the order of the day here. Everybody is busy making hay while the sun shines.

Mrs. LeGrande is planning a trip with friends.

B. C. to spend a holiday there on Saturday after their ten days trip to the States and report a most enjoyable time.

The Gem Basketball team is very pleased to have Dorothy Marquena home again. One of their best is the opinion of many of the community.

Mr. LeGrande, who has been the guest of her daughter, Mrs. E. Small during the past few weeks, will call from Montreal for England before the end of the month.

Don's forget the date of the Gem Rodeo, Sports and Carnival, July 13th. Rumours are afloat that the long promised railway for Gen has actually made a start somewhere in Ramsey.

Gen Community have two big celebrations ahead. Rodeo day the day of the first train arrives in Gen, and we'll also celebrate both events in a real royal way so, "Be Prepared."

Miss LeGrande, our stampede manager, is in Calgary attending the stampede. We are all looking forward to great events at Gen Rodeo, under the capable management of Miss LeGrande, ably assisted by Pat Fryberger, both men are very popular here and throughout the province.

Gen Basketball are practicing regularly in preparation for Rodeo day, when they will play visiting teams. We have some good players among our younger set, and many are looking forward with pleasure to this contest on July 13th.

Children and girls will be admitted FREE to the Gen Rodeo at their owners' request, July 13th.

A refreshment booth will be under capable management and every lady in the district is expected to give a little of her life voluntary on Gen Rodeo day.

C. P. R. Carpenters are expected in the Colony in a few days, to repair the bridge and attend to the farmer's needs in that particular line.

DUCHESS BOARD OF TRADE GOING INTO FARMING BUSINESS.

Will Raise Money to Build Hall for Farming Quarter Section.

The Duchess Board of Trade has arranged to lease on the Class of the Duchess, the farm just across the road from Bark and Baird's farm.

This place will be summerized this year, and the ground in 1928 by the board, the object being to raise money for a community hall.

At a meeting of the board recently it was decided to call for cash donations to raise enough money to farm the lease. Thus from about \$1,500 to \$1,600, which it will take to farm the place properly, the board expect to clear from \$5,000 to \$4,000.

## Meadowbrook Takes Second Game From Bassano Bearcats

Bearcats Get Away to Good Start But Meadowbrook Makes Strong Finish

The Bassano baseball team lost their second game with Meadowbrook Sunday afternoon by the score of 14 to 8. The game was played on the local diamond, and a good crowd turned out to see it.

The Bearcats, who were in a running start when they scored five runs in the first inning. Good hitting by the local "batters," and a couple of errors contributed to the scoring. The visitors were held to nil.

After that the Meadowbrook team settled down to a steady pace, and gradually piled up runs until the score was tied 8-8 in the seventh inning.

Bulmer was replaced by A. Marquard in the eighth when the visitors were leading by one run. The Meadowbrook batters were going strong and scored four more runs in the last frame. Marquard was getting poor support.

R. Marquard drove out a three runner inning, but was hit for the best hit of the game, but was left on third. W. Walters and G. LePage both got two base hits in the third inning.

The Bearcat's pitching staff was a little wild, and both Bulmer and Marquard hit several batters.

The lineup was: 1. J. Bulmer; A. Marquard; 2. G. LePage; 3. B. LePage; 4. W. Walters; 5. L. R. Marquard; 6. B. Bulmer; 7. W. Walters; 8. W. Walters; 9. W. Walters.

Wm Pollock inspired the game.

HAIL VISITS HUSSAR DISTRICT

Number of Farmers Sustains Losses From 20 to 100 Per Cent

Hail took toll and more again this week has done some damage to crops in the Hussar district.

The district north-east of Hussar has sustained the heaviest losses, which run from 20 to 100 per cent.

There is plenty of moisture in the ground, rain being numerous, and the wheat is showing a wonderful growth. Some of the best fields measure twenty-four to thirty inches high.

Hussar farmers are expecting one of the heaviest crops they ever harvested.

CONVENTS TO BE LAID AT OLD SCHOOL OF AGRICULTURE

The convents for the new dormitory and gymnasium at the School of Agriculture at Olds will be laid at 2:00 p. m. on July 22nd, with officials of the Department of Agriculture conducting the ceremony.

When complete this building will be a handsome brick and stucco structure of two and one-half stories. It will be fireproof throughout, the framework being of tile. The main section of the building will provide space for a large combined Gymnasium and Assembly Hall. Library, two class-rooms four offices a large dining-room and kitchen; while the north and south wings will provide dormitory accommodations for the students. The north wing (the girls) dormitory will accommodate eighty students and the south wing will take care of one hundred and ten young men students. There will be a sitting room on each of the three floors of each dormitory. Gracious steel arches will support the ceilings of the dining room and Assembly Hall.

The laying of the cornerstones is a part of the program of the Annual Reunion which is to be held on July 21st and 22nd. This Reunion affords an opportunity for students to review old acquaintanceships, and to view the beautifully decorated grounds and the experimental plots at the School. An especially good attendance is expected this year. All friends of the Institution are cordially invited to attend the dedicatory exercises.

### CAIMANGAY EDITOR WAKES PORTFOLIO AND PROSEY

"I heard Sandy Fraser the other day make an excellent speech in support of the new Wheat Pool contracts. Mounting the Chipco soap box he said: 'Ladies and Gentlemen (or otherwise) if you want to be in the swim you've got to get into the Pool. Remember you have wives and daughters to support and the expenses of these comforts are increasing day by day. We must have to carry the heavy burden whilst they carry practically nothing. Hear, hear (plaudits). But, brothers, we can't do without 'em as Bludyard Kipling says. Whilst East meets East and breast meets vest, Never the twain shall part. Therefore any method reducing the expenses of marketing our grain should be supported. Roll up, ladies and gentlemen, and sign. Roll up ladies, you are getting many presents of wheat from your husbands. You must join the Pool, too. I recommend 'Gray's Elegy' to those who don't. Yes, verily, mother is the necessity of convention. Besides we must have money for leisure and pleasure. The farmer is a man of great culture, but he has had little opportunity for recreation. Save money by joining the Pool."

TO SPRINKLE CROP BY MEANS OF AIRPLANES  
Planes for dusting wheat fields with coal, a chemical with which experiments are to be made in the hope that it will prevent or control black stem rust on wheat, will be used on an extensive scale in Manitoba, and will be tried in a smaller way in Cochrane County, North Dakota. It was learned Monday.

P. M. Shielke, officer of the Royal Canadian Flying Corps, spent Sunday in Fargo, N. D., en route from Philadelphia to Winnipeg with a new airplane which he will use in dusting fields in Manitoba. It is planned to treat about 6,000 acres in the Canadian province.

One unfortunate part of the Bassano stampede program was that not very many Indians attended. Stampede day was not a day for Indians receiving treaty money, and many who would like to have come to Bassano could not do so.

The stampede and sports program was pulled off successfully with a good attendance. The people like to come to Bassano where they are treated to a real show.

A writer in a Sunday paper points out that on the moon, where the attraction of gravity is not so strong a man could drive a golf ball six miles. What interests some of us more is that if we missed the ball we then could easily hurt the golf club a mile and a half.

### BASSANO'S STAMPEDE

For a postponed event the Bassano stampede and celebration was a decidedly successful affair. The attendance was a little less than that of last year, but had the rain not caused a postponement it is safe to say the 1928 attendance would have been completely eclipsed by that of this year.

However, nobody is complaining about the rain. Mothers mean good crops, and good crops mean a larger measure of prosperity for everybody. A good rain is of importance than the trouble of the stampede.

The stampede and celebration committee is pleased with the attendance and the general results of the day. They planned to put on as good a program as possible, and give everybody a good time, and they hope this end has been achieved.

### THE SWIMMING POOL

After many weeks of hard work the ticket selling campaign conducted by the swimming pool committee has been brought to a close.

While the committee did not achieve as great a success as they would like to have done, it was not through lack of effort on their part.

Shortly after the local committee got their scheme under way many similar schemes were launched by other towns in the province. Doubtless this had some effect in curtailing the sale of tickets.

The swimming pool committee did very well, and may be congratulated on what was accomplished. They realized a profit over and above all expenses of \$1,257.24. While this is not sufficient to build a pool of concrete as they had originally planned to do, it is estimated to be enough to finance the building of a pool with plank sides and a gravel bottom. Pools of this type are said to give good satisfaction.

The committee plans to build a pool of this description. They will then achieve their object of providing the people of Bassano with a pool for swimming.

## CONGRESS OF CELEBRITIES WITH GENTRY BROS. CIRCUS UNRIVALED IN ENTIRE WORLD

No other circus in the world can present a roster of performers containing the names as significant in the circus world as those contained in the list of performers with Gentry Bros. Shows, which will exhibit in Bassano, on Tuesday, July 19th.

With Gentry Bros. Shows will be found the world's most wonderful acrobats, the most famous gymnasts, and the most remarkable athletes, musicians and clowns, ever gathered together under one big tent.

It required hundreds of thousands of dollars and many years of ceaseless searching for Gentry Bros. to locate such a staff, but now they have reached their perfection and it is a known fact in the "show" world that they have the premier circus of America.

Not alone though does this circus possess the most celebrated performers among the humans. This rule will apply equally as appropriate to the animal "performers". In the immense menagerie will be found the greatest collection of the world's rarest animals ever shown in this country. Gentry Bros. also boast of their 200 magnificent performing horses.

Many acres are required to house the immense tents of the Gentry Bros. Shows this season and it requires more than 500 people to present the performance. More than \$750,000 has been invested in equipment.

The mile-long spectacular street parade will be given at 11 a. m. rain or shine and the doors to the mammoth menagerie will open at 1 and 7 p. m. The big show performance starts at 2 and 8 p. m.

The funny side of the program has in no way been slighted this year and the antics of the 30 funny clowns are calculated to make even the dullest ear tingle to the backbone. These play-boys in their eccentric make-ups have scores of new "wants" that are proving great innovations and in keeping with the most trend of the entire show.

To the kiddies, as well as their parents, a visit to the Gentry Bros. Shows will prove to be a two-hour journey through a joyland of the highest type of circus entertainment and an unforgettable amusement as well as an educational treat.

## BOUNTIERS

Building Power Line For Irrigation Pump

The construction department of the United Electric and Engineering Co. is building the line that will carry the electric current for operating the town irrigation pump.

The line will be about half a mile long, and will branch off from the main line near the C.P.R. D.N.R. office.

The electric motor and pump are now at the head of the town ditch where it meets the main canal of the C.P.R. D.N.R. works. The machinery is now being set up for operation.
